

Progress at Dolgarrog

As mentioned in the Editorial on page 1, a great deal has been accomplished, by quite a small number of very hard working and dedicated members of the work team. The photographs on this page and on page 4 give a small glimpse of the many tasks that have been undertaken. The Stop Block at the top of the site has been erected, and the whole of the HQ Site is fully laid out with rail, which has all been checked and is fully fit for running.

Photos above: (Top) Dave Trains tightens bolts on one side of the stop block (Centre) Here one side of the stop block is being lifted into position. (Bottom) Carwyn Rhys Jones, (left), Dave Lea and Dave Trains manhandle another part of the stop block into position

Photos Above: (Top) Dave Trains lines up the stop block rails with the main track. (Centre) Dave Trains looks on whilst Dave Lea screws down the chair - (Bottom) Dave Lea (kneeling) Dave Trains and Carwyn Rhys Jones struggle with a recalcitrant chair and fishplate. (More pictures on page 4)
